

Resourceful solutions for exceptional results.

Working with the oil and gas, petrochemical, and chemical industries Baker understands the particularly rigorous administration, quality, and safety requirements typical of these projects.

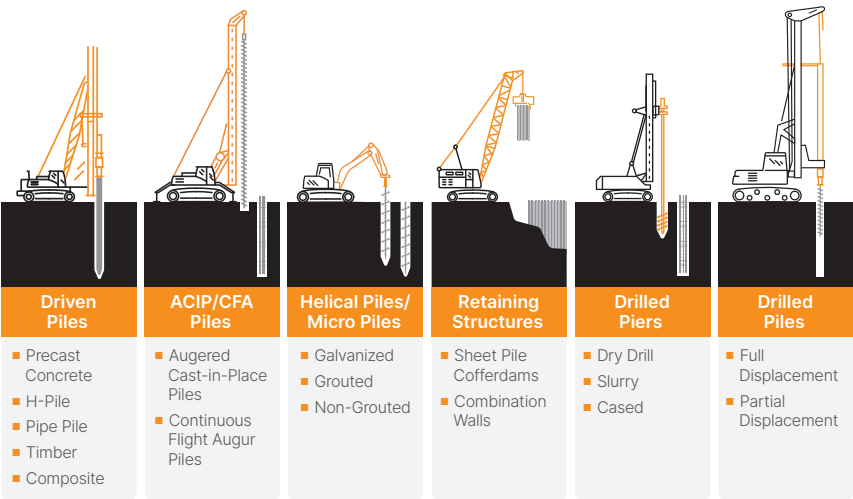

Over the past 50 years, we have applied our world class performance, expertise and capability at refining and petrochemical facilities, as well as specialty structures like cokers and LNG storage tanks.

Baker experience runs deep.

Secure a strong foundation for project success by relying on our decades of experience in deep foundation design and execution. Baker has the specialized knowledge and capabilities to design and deliver a full range of deep foundation systems.

DEEP FOUNDATIONS DISCIPLINES

Baker brings a strong financial foundation to all its projects.

Baker is backed by the extensive network, technology, and resources of our parent company, Baker Construction Enterprises (BCE).

BCE is a large and successful concrete construction company. That means we can assemble the right team with the right expertise and equipment at anytime and anywhere.

BCE FINANCIAL STRENGTH	
5 YEAR REVENUE	
2024	\$2.36 BILLION
2023	\$2.30 BILLION
2022	\$1.97 BILLION
2021	\$1.46 BILLION
2020	\$1.41 BILLION

From new construction to concrete renovations, quality and durability is built into every project.

As a full-service civil contractor, Baker specializes in deep foundations, underground utilities, concrete foundations, concrete restoration, and protection services in the oil and gas, pulp and paper, petrochemical, and related energy markets.

We have the demonstrated expertise, capabilities, safety record, and financial muscle to efficiently tackle the most challenging projects on land, in water, or with limited access.

Let's discuss how we can bring more value to your next project.
