Construction

**Industrial Concrete
Construction and
Related Solutions**

From the planning table through execution, you will have experts at your side to help determine the best, most cost-effective means to achieve project goals.

Comprehensive Solutions. Unmatched Delivery.

Mitigate risk and control costs by adding the nation's largest concrete contractor to your team. Baker Construction has the expertise, safety record, and drive for excellence to safely deliver quality work to the most exacting standards.

We'll uncover unknowns, remove obstacles, and identify opportunities for improved economy of design and execution. And because we self-perform our work, we take full accountability for the scope we promise. With 8,000+ skilled co-workers and equipment yards strategically located around the country, we can rapidly mobilize anywhere in the U.S.

Proven Expertise across Industrial Markets

Efficiency, safety, and precision are paramount to success. With more than 55 years of experience in concrete construction and a deep understanding of the industries we serve, we know what it takes to create value for our clients — and we deliver, every time.

Seamless Mobilization of Resources

From preplanning through turnover, we ensure the right resources are committed to the job. You can count on us deliver on our promises because we have a dedicated labor pool with the expertise, capabilities, and commitment to drive the schedule with quality craftsmanship.

Flawless Execution from the Anchor Bolts on Down

Our ability to execute multiple scopes of work brings a higher level of project management and quality assurance to every engagement.

We have the field-proven policies, programs, procedures, and resources to govern every aspect of planning and execution — and the track record to prove it.

Safety as a Way of Life

At Baker, safety isn't a matter of compliance; it's about doing the right thing for our people and managing risk for our clients. We prioritize safety through our Incident and Injury Free culture, which is backed by proven strategies, policies, and programs for maintaining safe operations. Our fierce determination to do better than baseline is reflected in our exceptional safety ratings.

Done Right the First Time

Our approach to total quality management results in first-time quality, reducing the risk of cost overruns and schedule delays. Building quality and accountability into our project plans verifies our high standards are met as we go, ensuring we hit our targets, prevent rework, and avoid costly delays.

Superior Bonding Capacity for Greater Assurance

Our industrial team is backed by the extensive network, technology, and resources of the Baker enterprise. Baker's exceptionally large bonding capacity enables us to bond projects of any size, safeguarding your investment with the guarantee that we can deliver on time and on budget.
