

# Build with confidence from foundation to finish.

Baker Construction delivers precision civil solutions for tank foundations, slabs, and containment systems — all backed by a national workforce of 8,000+ co-workers and a proven track record in high-stakes industrial environments.

We offer every critical civil construction scope under one roof to streamline delivery and minimize risk. Whether you're building from the ground up or extending the life of an existing asset, we have the technical expertise, workforce strength, and fully integrated capabilities to get it done right the first time.

## Turnkey tank civil expertise.

As your single point of contact, we can reduce the coordination and resources required to manage multiple contractors. And with the ability to self-perform more than 80% of the work, we maintain tighter control over quality, coordination, and scheduling at every stage.

### Preconstruction/Early Collaboration

- Preliminary budgeting and estimating
- Building information modeling
- Sequencing and phasing plans
- Site logistics planning
- Piling strategy development and testing programs
- Regulatory, safety, and spec compliance guidance

### Site Preparation and Deep Foundations

- Ground improvement techniques
- Underground utility installation
- Design-build deep foundation delivery
- All disciplines of piling including driven, helical, sheet, and drilled piling
- Pier construction
- Site-specific piling selection for optimal value

### Tank Ring Walls and Concrete Slabs

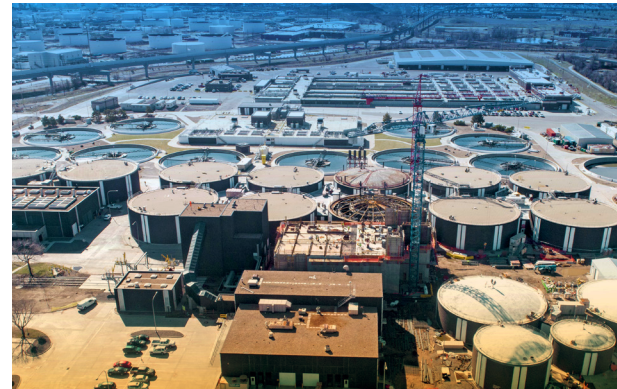

- Reinforced concrete ring walls
- Concrete ring wall foundations
- Tank base slabs
- Secondary containment systems
- Concrete full containments on cryogenic storage tanks
- Safe and efficient execution on complex or schedule-constrained sites

### Concrete Construction

- Industrial-grade concrete structures
- Inside-the-fence qualified crews
- Specialized teams for high-spec environments
- Turnkey delivery for civil and structural scopes

### Concrete Repair, Restoration, and Lifecycle Maintenance

- Coatings and corrosion protection
- Structural concrete repairs
- Anchor bolt and chime seal repairs
- Pour repairs and patching
- Turnaround and rehab support
- Long-term maintenance planning and execution
