

RESTORATION

BAKER[®]
Construction

**Comprehensive
Concrete Restoration +
Protection Solutions**

We build lasting solutions.

Partner with a team that specializes in reducing complexity, minimizing disruption, and delivering quality craftsmanship on every project.

Industrial facilities are complex operations. Projects to repair, strengthen, and protect them introduce another level of complication. Baker's Restoration team mitigates risk and uncertainty from the outset to ensure seamless execution.

We offer a full suite of services to extend the life and enhance the functionality of structures across industries. Our approach integrates top engineers and solutions technologies with our SteadyOps Assurance program to provide tailored strategies that prioritize your operations and goals.

Proven Solutions for Every Need

REPAIR + RENOVATION

Extend the lifespan and functionality of your structures by addressing issues before they impact your operations. Our expertise in structural repairs and adaptive renovations ensures your facility can grow and evolve with your needs.

CORROSION SOLUTIONS

Protect your infrastructure from the damaging effects of corrosion with advanced solutions that repair, reinforce, and prevent further deterioration. Our targeted methods preserve the integrity of your structures and safeguard your processes.

PROTECTION

Guard against water intrusion and wear and tear for long-term durability. Our comprehensive solutions include below-grade and above-grade waterproofing, joint sealants, and water repellents, as well as coating and flooring solutions that enhance productivity and ensure your products and processes stay contained.

STRUCTURAL STRENGTHENING

Prolong and expand the use of your structures with engineering-backed solutions that support additional loads, meet updated codes, and extend usable life.

Client-Centered Approach

We go beyond just restoration work to serve as your advocate. As your "Solution Advisor," our team will guide you through each step to customize solutions based on your project needs, operational requirements, and overall preferences.

Tailored and Agile Solutions

One-size-fits-all methods rarely address the complexity of restoration projects or requirements. Through our SteadyOps Assurance program, we conduct detailed structural assessments and in-depth planning sessions to understand your priorities. Using these insights, we collaborate with strategic partners to develop plans tailored to your needs.

Experienced, Field-Tested Team

Our experience as contractors enables us to offer practical, real-world insights. You gain the advantage of boots-on-the-ground expertise, an established safety record, and a defined quality program that reduces the risk of rework, schedule creep, and budget overruns at every step.

Engineering, Technology, and Execution

By collaborating with leading engineers and technology providers, we can offer the best of all worlds. We blend engineering insights with cutting-edge technology, proven techniques, and advanced materials to achieve optimal outcomes.

Why Partner with Baker's Restoration Team?

- **SteadyOps Assurance Program:** We focus on keeping your organization up and running with minimal interruption while delivering the most effective solution for your structure and operations.
- **Experienced Team:** Decades of field experience and technical knowledge lead to more informed and streamlined project plans.
- **Technology-Agnostic:** We assess and choose the best technology for your project, free from brand-bias.
- **Transparent Communication:** Clear, proactive communication keeps you informed every step of the way.
- **Safe Operations:** Backed by a rigid framework for mitigating risk, we consistently maintain an exceptional TRIR.
